Dear Mr. Elfring:

Confirming our phone conversation yesterday, here are the items we talked about. One is the Ash Grove invoice for \$576.00 for the hydraulic fluid consumed by the ship unloader for the cargo discharged from the M.V. Beau Admiral in March. Also enclosed are two invoice copies from Texaco's distributor for 220 gallons. The billing from Ash Grove is for 180 gallons as determined by measuring the balance remaining in the delivery drums.

Sincerely,

Stan Webb
